Supply order

Please fill in and fax back: +49 (0)89-21543656

Sender/practice stamp:

I/we require:

Histology container - small (tube, 1 ml)

Histology container - medium (20 ml)

Histology container - large (90 ml)

Plastic specimen bags - small

Plastic specimen bags - large

Submission forms

Other: _____

How do I send a histopathological sample?

- close the cover tightly
- write the owner's name on the label
- seal the cover with an absorbent adhesive tape (not Tesa!)

- put the container together with absorbent material in an overpack, like a second container, a zip-bag or a glove

- pack it with the submission form in the blue plastic bag
- close the plastic bag with the added clips (not tacking!)
